

Support Us

The KHRC team is committed to translating our discoveries into improved kidney health for all persons. We welcome collaborators across the world. We are actively involved in our communities with research projects designed to directly improve care of persons with kidney disease and hypertension. We welcome participation in our clinical studies either at the San Francisco VA, the UCSF Medical Center or the San Francisco General Hospital. We are actively engaged in talks to educate all persons about our work. Let us know if you would like to learn more about our activities.

You can also support our team with your generous donation. Your contribution will support our research program and the training of young scientists. If you would like to get more information about how to donate, [click here](#) [1] and you will be redirected to our donation form.

We would like to acknowledge our many supporters:

Our Donors:

The Campini Foundation

Larry and Helen Rosenberg

Funding Agencies:

National Institute of Aging

Robert Wood Johnson Foundation

The National Institute of Diabetes and Digestive and Kidney Disease

National Heart, Lung, and Blood Institute

Website made possible by a gift from Larry and Helen Rosenberg
